MD ASADUL ISLAM

Software Engineer — Full-Stack MERN Developer
asadut486@gmail.com +880-1791093112 Dhaka, Bangladesh
github.com/Asadul09 portfolio-react-lac-eta.vercel.app

PROFESSIONAL SUMMARY

Full-Stack MERN Developer with a Computer Science degree and 6+ months of hands-on experience designing and deploying scalable web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js), RESTful API development, and cloud deployment. Proven ability to integrate AI-powered features, implement JWT Authentication, and build responsive, user-centric interfaces. First-author of an IEEE publication; passionate about delivering robust, data-driven software solutions that enhance user experience and efficiency. Seeking to leverage full-stack development expertise to solve complex problems in a dynamic team environment.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, Java, C#, Python, PHP, SQL, C.
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite, Responsive Web Design.
- **Backend:** Node.js, Express.js, ASP.NET, RESTful APIs, JWT Authentication, Firebase Auth.
- **Databases:** MongoDB, Mongoose, MySQL, Microsoft SQL Server, Firebase Firestore.
- **Tools & Platforms:** Git, GitHub, Docker, AWS (EC2, S3), Postman, VS Code, Vercel, Render.
- **Software Engineering:** OOP, MVC, Auth & Authorization, API Integration, CI/CD.
- **AI & Machine Learning:** ML, Deep Learning, CNN, SVM, Decision Trees.

PROJECTS

VivaBot– AI-Powered Mock Interview Platform (MERN)

github.com/Asadul09/VIVABOT
vivabot-lake.vercel.app

- Built full-stack AI interview platform using React.js, Node.js, Express.js, and MongoDB.
- Engineered 10+ secure RESTful APIs for authentication, interview management, and resume analysis.
- Integrated AI resume parsing, Web Speech API, and performance reporting, improving engagement by 30%.
- Secured with JWT Authentication and deployed on Vercel/Render with 99.9% uptime.

EventHex– Event Management Platform (MERN)

github.com/Asadul09/EventHex

- Developed full-stack event management platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented 8+ features including JWT authentication, CRUD operations, and admin dashboard.
- Designed secure RESTful APIs, reducing data retrieval time by 15% via optimized MongoDB schema.
- Built responsive UI ensuring seamless experience across all devices.

Exam Enrollment System (Android & Firebase)

github.com/Asadul09/Exam-Enrollment-System

- Built native Android app for university course registration, enabling 500+ students to manage enrollments.
- Integrated Firebase for real-time database sync and secure user authentication.
- Implemented rigorous input validation and intuitive navigation following Android best practices.

More Projects: GitHub Repositories

EXPERIENCE

Data Analyst **Sunset Kuakata Hotel & Resort Ltd, Dhaka.**

Aug 2026–Present

- Analyzed **CRM and Excel data** to track sales, KPIs, and employee performance.
- Created interactive **Power BI dashboards and reports** for data visualization and performance monitoring.
- Performed **data cleaning, transformation, and analysis** to generate accurate business insights.
- Prepared regular reports and visualizations to support **data-driven decision-making**.

Full-Stack MERN Developer **VivaBot– AI Interview Preparation Platform**

IEEE Conference Publication *Jun 2025– Dec 2025*

- Led full-cycle development of an AI interview preparation platform, collaborating with a cross-functional team to deliver 6 core modules within 3 sprints.
- Architected secure backend services using Node.js, Express.js, and MongoDB, implementing robust authentication and authorization with JWT.
- Developed responsive frontend components in React.js and integrated them with backend APIs, ensuring seamless user experience.
- Utilized Git and GitHub for version control, code collaboration, and efficient source code management.

Full-Stack MERN Developer **2025**

Business E-Commerce Website (Freelance) *Project-Based*

- Engineered a full-stack e-commerce application with React.js, Node.js, Express.js, and MongoDB to support a client's online retail operations.
- Developed 8+ features including product catalog, secure shopping cart, order processing, and an administrative dashboard.
- Optimized the UI for responsiveness, achieving a 20% increase in mobile conversion rates.
- Deployed the full-stack application on Vercel and Render, ensuring 99.9% uptime.

Academic Software Developer **2022– 2025**

University Projects

- Designed and developed 5+ academic software applications using ASP.NET, Java, PHP, and Android, applying OOP and MVC.
- Managed MySQL/MSSQL databases, performed CRUD operations, and collaborated using Git while following software engineering best practices.

EDUCATION

Bachelor of Science in Computer Science & Engineering **Dec 2021– Dec 2025**

Ahsanullah University of Science and Technology (AUST), Dhaka, Bangladesh
CGPA: 2.68/4.00

Higher Secondary Certificate (Science) **2017– 2019**

Ghatail Cantonment Public School and College, Tangail, Bangladesh
GPA: 5.00/5.00

ACHIEVEMENTS

- **IEEE Publication:** First-author at 2026 IEEE QPAIN conference.
- **Project Portfolio:** Deployed 8+ successful academic, freelance, and personal projects using MERN, ASP.NET, and Java.
